

Motion Intelligence for the Sports World

Bringing stadium-level
technology to the 99% of
courts, clubs, and
academies.

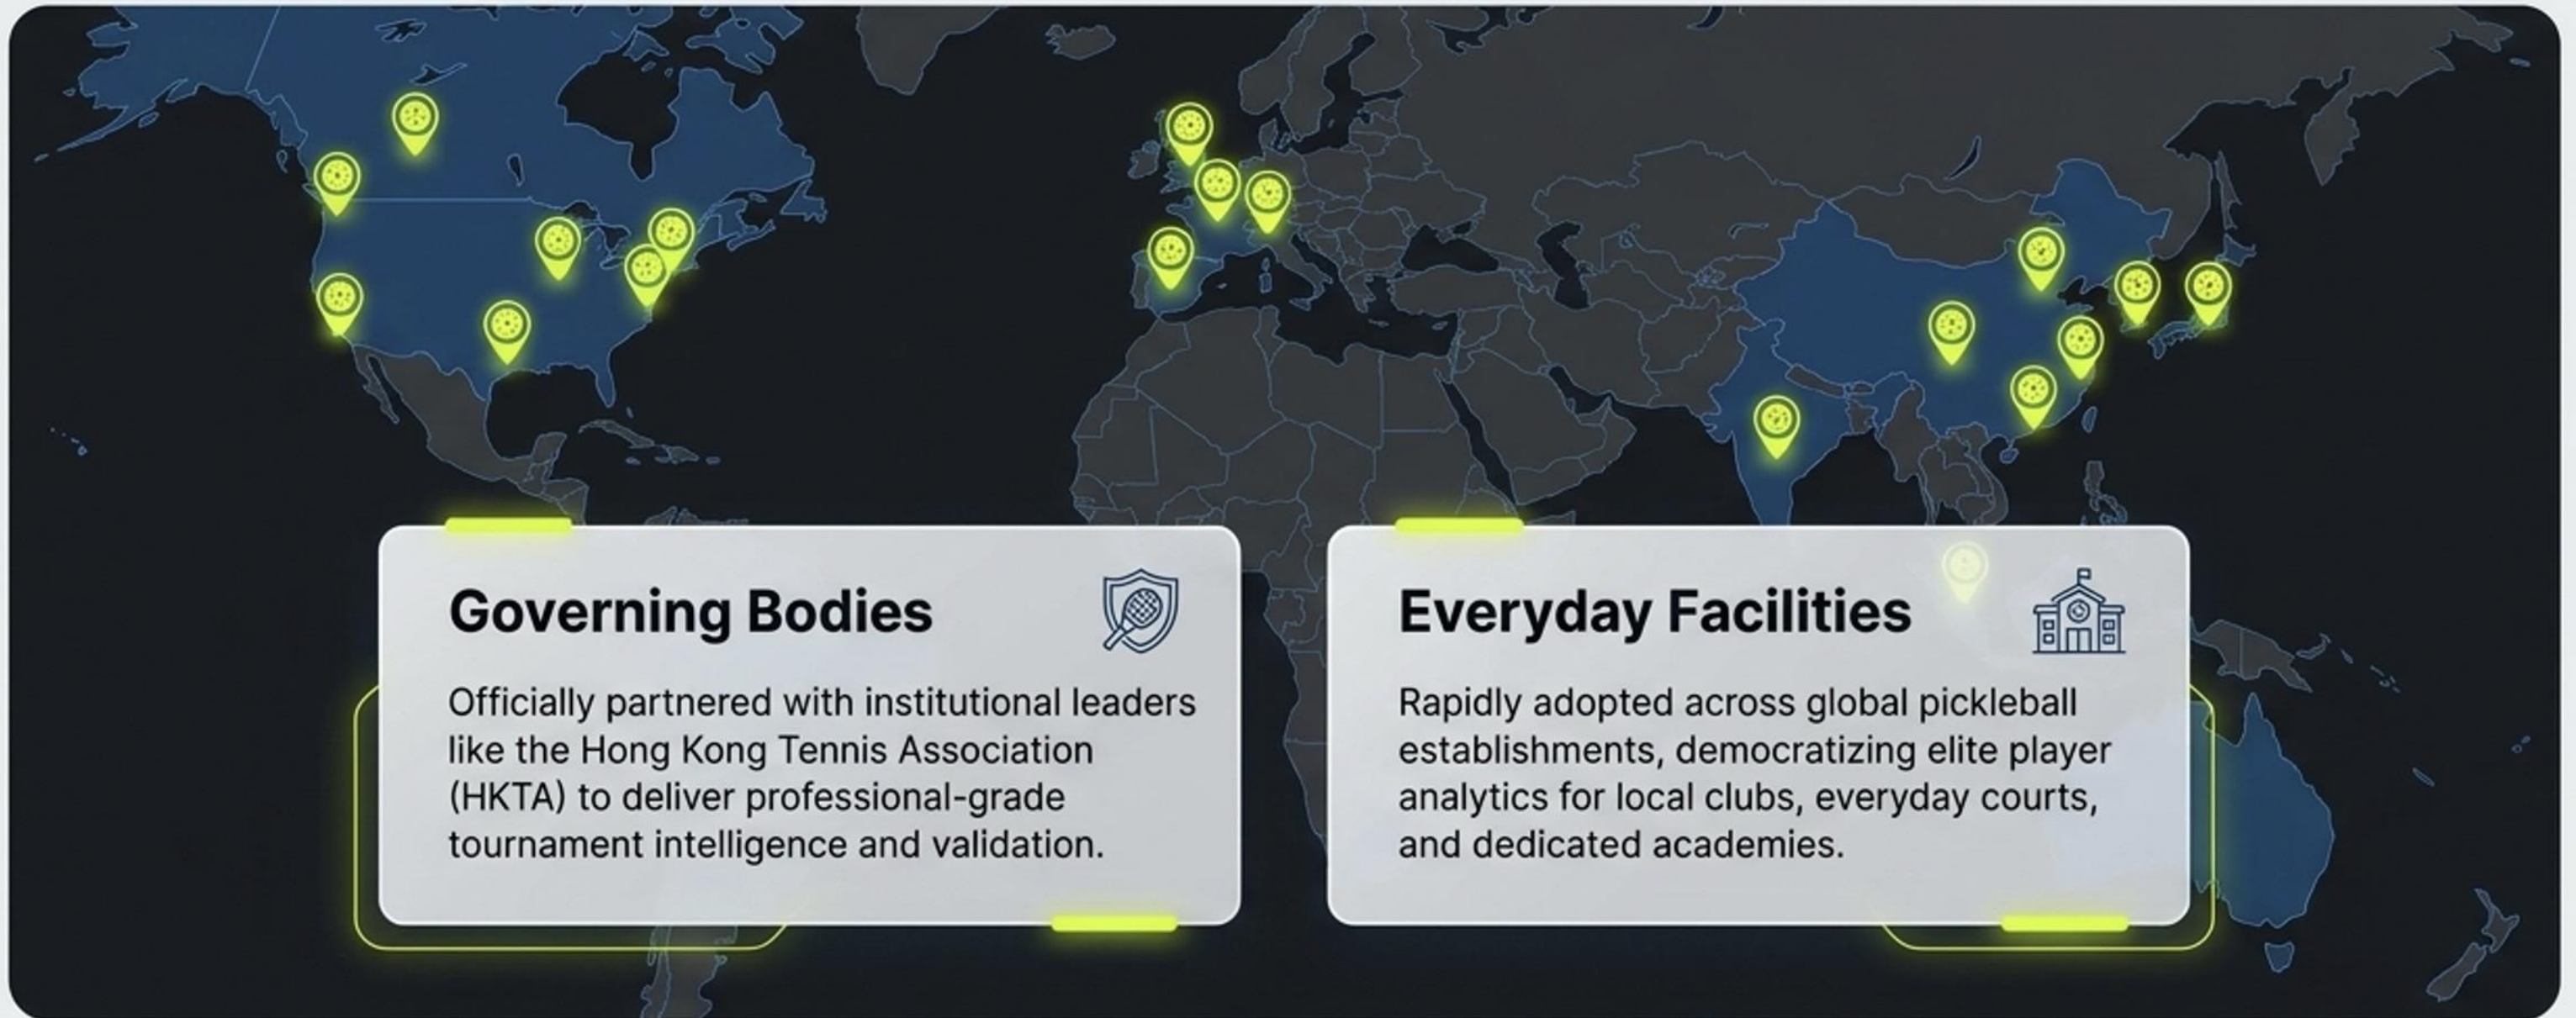

Introducing Smash & Replay

Pickleball just got its own courtside VAR, powered by portable 3D tracking.

Trusted by the Global Racket Sports Community

From national tennis associations to the fastest-growing pickleball clubs worldwide, eyes3 brings trusted, verifiable motion intelligence to the courts that drive the sport.

Governing Bodies

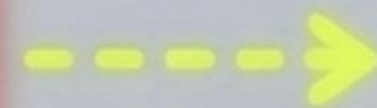

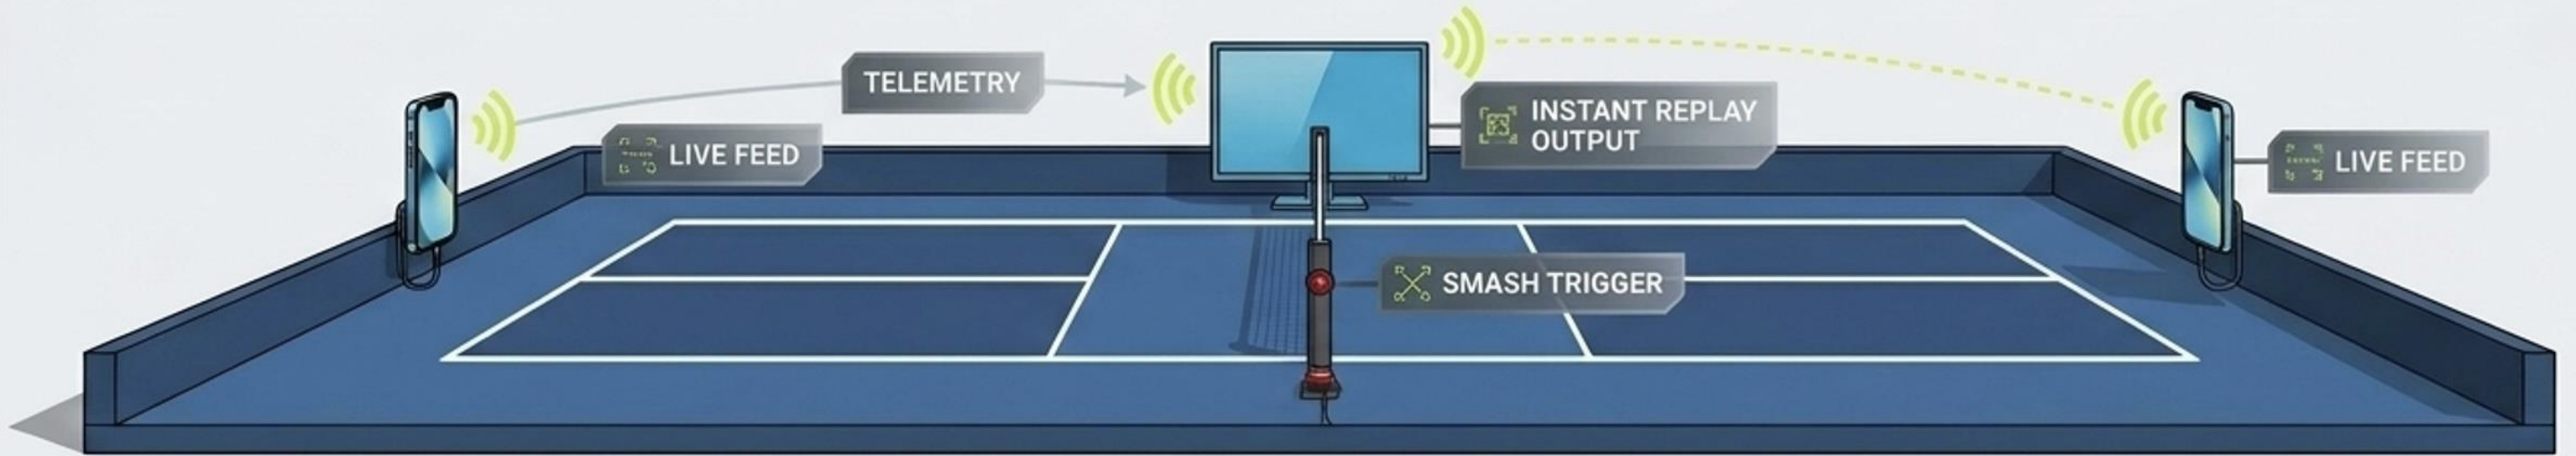

Officially partnered with institutional leaders like the Hong Kong Tennis Association (HKTA) to deliver professional-grade tournament intelligence and validation.

Everyday Facilities

Rapidly adopted across global pickleball establishments, democratizing elite player analytics for local clubs, everyday courts, and dedicated academies.

You Already Have Most of What You Need. No complex systems required.

Zero disruption. Instant gratification. Built for the pace of pickleball.
The replay plays on the screen as you walk back to serve.

Game On.

What moment will YOU replay first?
